ENVIRONMENTAL POLICY STATEMENT

A1 Demolition UK Ltd are committed to the pursuance of good environmental performance by controlling and continually seeking to reduce its adverse impact on the environment.

The Company regard compliance with legislative, regulatory and corporate requirements, the prevention of pollution and the promotion of environmental protection as a mutual objective of management, employees and contractors at all levels.

A1 Demolition UK Ltd will work towards environmental best practice aimed at achieving continuous improvement by:

- Assessing/monitoring the impact of current activities.
- Assessing in advance the environmental impact of all new activities, processes, machinery or products.
- A “Duty of Care” approach will be adopted to any waste contractor appointed by the company aimed at ensuring all waste streams are removed and disposed of by licensed carriers.
- Recycles as much as possible.
- Consider environmental impact of materials when purchasing.
- Taking reasonably practical actions to prevent pollution /environmental damage.
- Minimising use of natural resources by adoption of energy and water conservation and by use of minimisation measures as far as practicable.
- Providing necessary resources to provide such information, instruction and training appropriate to ensure the policy is fully implemented.
- The Managing Director will give full backing to all those committed to achieving the Policy objectives.

Mark Jervis
Managing Director
